

In-Out Breather	Identify Data													
<p>Our product is made with a specially designed inside part to enable for the storage tanks to equalize either vacuum or overpressure</p> 	<p>Product Group Type</p>	<p>KBL I BRV 945</p>												
	<p>Application Area</p> <p>Oil, chemical and gas industry areas furthermore all energy sector areas where the storage tank systems are heavily flammable and explosive for the safety of the system in case of either vacuum or overpressure.</p>													
	<p>General Data</p> <p>It is possible to mount on the storage tank with flanges or with threaded end, finished with dataplate mounted on the equipment and the quality certificate enclosed as well.</p>													
	<p>Engineering Data</p> <p>Connection Size: DN15-DN100 Pressure Grade: -5 mBar+20 mBar Temperature: -40°C...+80°C</p> <p>Material Quality:</p> <ul style="list-style-type: none"> - Carbon Steel(1.0570) - Stainless Steel (1.4301;1.4404;1.4571) - Other (Aluminium Alloys)
